1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr Edmonds on 2/11/04

On page 2, line 3, of the specification, after " application" insert:

-is a divisional application of serial number 10/176,083 , filed 6/21/02, now U.S.Patent no. 6,681,422 and

In claim 19, line 4, after apertures insert:

-, adapted to releasably accommodate straps, -.

Cancel claim 23.

The following is an examiner's statement of reasons for allowance:

Mr. Edmonds permitted the insertion of a reference to the parent application, and the cancelling of claim 23 ,reciting straps 80, which straps are already recited in claims 21 and 22.

The very crowded prior art of record, cited on attached PTO 1449 and 892, fails to teach or suggest the use of strap accommodating apertures 78 in the flat sheet..Such apertures, along with straps accommodated therein , provide great versatility of use, as set forth in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
